Using An Android Phone To Send Pictures

This example is Using Gmail email on your Smart Phone. Though you may use a different email service than Gmail and a different brand of cell phone, look for similarities in words and symbols on your phone.

These steps assume you have already taken the pictures using your cell phone that you wish to send.

Step #1. Enter your Gmail email account.

Step #8. If needed, rub your finger side ways or up/down on the pictures to see more pictures. Tap on the **one picture** you wish to send.

If you wish to send more pictures, repeat steps #5-8 for each picture desired.

NOTE! There is a limit to the number of pictures you can attach to one email, usually 2 or 3. Of course, you can use additional email messages to send more pictures.
